OBJECTIVE

Motivated Junior Developer with over 1 year of practical experience in C#, .NET, and full-stack web development. Eager to contribute to impactful projects, expand professional skills, and grow within a forward-thinking team.

EDUCATION

International University of Information Technology (IITU)   *Expected 2025*

B.Sc. in Information Technology

Relevant Coursework: Algorithms, Database Systems, Web Development, Object-Oriented Programming

SKILLS

Programming Languages: C#, JavaScript (TypeScript), Python, SQL
Web Technologies: Vue.js, React.js, ASP.NET Core, Node.js, REST APIs
Database: MongoDB, PostgreSQL, SQL Server, PgAdmin4
Tools: Git, Docker, Kubernetes, Heroku, AWS, DigitalOcean
Other: Telegram Bot Development, WebSocket, Agile Methodology

EXPERIENCE

Junior C# Developer   *Jan 2024 - Present*

Freelance / Projects

- Developed a Telegram bot with user authorization and daily quiz features using Telegraf.js and TypeScript, integrated with MongoDB for user management and quizzes.
- Built a real-time taxi booking system using Node.js and MongoDB, implemented message buttons for order actions, and deployed the solution on Heroku.
- Created a ToDo application with Vue.js using the Composition API, supporting task management with localStorage, filtering, and sorting functionalities.

Intern Web Developer   *Sep 2023 - Dec 2023*

Salescout, Almaty, Kazakhstan

- Maintained and updated the Salescout platform, an automated bot that manages seller profiles across multiple marketplaces.
- Collaborated with the support team to resolve technical issues and manage product documentation.
- Integrated improvements to user experience, reducing technical support requests by 20%.

Intern Full Stack Developer   *Jun 2023 - Aug 2023*

Company XYZ, Almaty, Kazakhstan

- Contributed to developing a PC and PlayStation club booking system, implementing user registration, real-time availability checks, and bookings with Node.js and React.
- Integrated MongoDB and Express.js for backend functionality, optimizing performance for concurrent users.

PROJECTS

Telegram Quiz Bot (Open Source)   GitHub

- Built a Telegram bot using TypeScript and Telegraf.js, supporting random quizzes with user scoring and daily performance tracking.

Taxi Booking System (Freelance Project)   GitHub

- Created a booking system for taxis with Telegram integration, including order acceptance, real-time notifications, and MongoDB storage.

ToDo App (Vue.js)   GitHub

- Developed a task management app using Vue.js and the Composition API, with real-time data persistence and user-friendly UI.

EXTRACURRICULAR ACTIVITIES

- Write blog posts and technical articles on Medium about web development and best practices in C# and .NET.
- Contribute to the FAANGPath Discord community, supporting over 6000+ members in tech job searches and career advice.
